

Wonky Wedges

Welcome to the Wonky Wedges workshop. In this workshop we will make a quilted panel and then turn it into a cushion that is sure to add style to your decor. We will be using improv quilt piecing and a quilt-as-you-go method to create a panel for the front of the cushion. Then we will look at different ways of embellishing the panel with hand or machine stitching and prepare a back for your cushion using the leftovers from your fat quarters.

Supply list:

3 Fat Quarters

20" x 20" muslin (or scrap fabric as it will be hidden inside the cushion)

20" x 20" batting

Thread to match

Sewing machine and basic sewing supplies.

Embroidery thread if hand stitch embellishing.

Stuffing or pillow form can be purchased later.
