8" x 10" black and white and color photograph for reference.

300% black and white enlargement of chosen photo. Use a close up of the face removing unnecessary background. See website for more details.

A variety of skin colored fabrics in colors in light, medium and dark, in at least 6 shades, you can throw in some surprises in the right tones.

Batiks, textures, small prints, hand dyes all work well. Also colored fabrics for details; hair, lips, clothing etc. I will bring some to share.
