

Finding your Creative voice.

The quilts above are some of my award winning show quilts.

Let me help you find your unique Visual Voice. This interactive morning lecture will help you dramatize movement, depth, color combinations, emotion and balance to your Quilts.. Learning the language of design will help make the most of your contemporary or traditional quilts. Beauty is in the eye of the beholder - so there are NO right and wrongs, only a clearer understanding of what appeals to us. We look at a wide range of diverse quilts by other artists and myself and discuss together what appeals to you and why that is. In the afternoon we will work in groups to brain storm ideas for projects students bring that they want feedback on.

Full Day workshops - We will work in groups to brain storm ideas for projects that students bring that they want feedback on.

For a 6 hour workshop bring UFO's, Orphan blocks, and pictures or projects that you want feedback on.

You will have a new sense of confidence as we work together in this totally supportive environment to plan or enhance your new quilt. If you need help with fabric colors bring samples of options. Quilts and quilt tops, sketches, pictures that you are willing to share with the class for feedback.

This will be a safe and supportive place to share your quilts and ideas..

Sketch or grid paper large enough to lay out your quilt design. We can discuss layout, fabrics and techniques that will bring them to life.

Pencils, colored Pencils, eraser, ruler's that you might need for working on a layout design.
