

ROAD@HOME

# ROAD@HOME

Road@Home is in addition to our in-person Quilters' Conference & Showcase. The event is catered to those who are unable to travel to Ontario. Each event will co-exist and be unique but will also share some of the best aspects of both formats.

The Road@Home digital platform allows us to offer you a greater diversity of classes and events that we are otherwise too restricted on space for our in-person show. We have some amazing Special Events that will have a spin on some fan favorite in-person events. We also have a very unique special event coming to Road@Home that has never before been seen in the quilting industry. We can't wait to let you know more and we are announcing that event in mid-October.

Our class catalog for an in-person show is one of the best aspects of Road. With Road@Home we are able to go even farther than ever before! Our entirely new line up of teachers will have something for everyone.

We are even venturing into classes that will help you investigate into a professional career in quilting. These Professional Development classes will be taught by seasoned professionals in the field of quilting with impeccable credentials. This will be the first time Road will also host panels covering all types of topics.

When planning Road@Home we are taking great care in trying to offer you an experience that you will have the best of an in-person event digitally – that includes quilts and vendors. Our special exhibit gallery will be second to none with quilts from all genres. Our vendor mall will house vendors from all over offering you products that you can purchase and have shipped to the comfort of your own home.

Road@Home is so much more than a digital event, but also a way for you to meet and chat with quilters from across the globe from the comfort of your home. We will be releasing more information on our website and social media in the coming weeks regarding Road@Home so please be patient as we finalize all the details and get information online.
