

Sewing Machines for this class are provided by Baby lock and Moore's Sewing Center.

Due to safety concerns and contractual obligations, you are **NOT** permitted to use any machine other than the machines provided by Baby lock.

The following supply list may state that you need to bring your own sewing machine. **THIS IS NOT CORRECT.** Please do not bring your own sewing machine to this class.

**FOR THE LOVE OF SEWING**

***PLEASE CONTINUE TO PAGE 2 FOR THE INSTRUCTOR'S SUPPLY LIST.***

## Pastiche Rulerwork Sampler Class Road to CA 2023 Supply List

This class features the Westalee Rulerwork Kit of tools. Each of 7 templates is used in more than one way to show its versatility. The class also explores the amazing designs that templates can create when used in combination. Techniques include curved and straight designs, blocks and circular motifs, background fills, borders, and much more. In addition to the in-class content, student can also take advantage of additional, virtual free-motion classes, available at no additional charge, to add fills to this project. This is a robust and faster paced starter rulerwork class with designing and rulerwork techniques taught in combination. The class works from the center of the sample moving to the outside. Not all designs can be completed in a single day workshop. Not suitable for beginning quilters.

### Classroom provided tools and supplies

**(If you are in a sponsored classroom where machine are provided, these should be provided but are included here for your reference.)**

### Machine related items

- Machine in good order and manual
- Rulerfoot to match your machine
- Machine Screwdriver
- Straight Stitch Throat Plate if it fits the machine rulerfoot setup
- 40 wt Polyester Thread
- 90/14 Topstitch or Quilting needle
- Machine extension table such as a Sew Steady table (HIGHLY recommended)
- Bobbins (can match the top thread if desired)
- Appropriate spool caps including the tiny, special purpose spool cap

### Westalee Design Tool Requirements:

- 12" Arc template
- Westalee Sampler Set 1
- 8 Point Crosshair (Students will share this tool in class.)

### **Student Provided Tools and Supplies:**

1. **Quilt Top:** 32" by 34" solid piece of fabric. See the marking information guide at this link: [FabriKated Quilts Pastiche Rulerwork Sampler Marking Guide Handout](#).
2. **Backing and Batting:** 36" x 36" . Use solid color for the backing fabric so you can see your progress. Please use good quality batting that is not overly puffy to create an easier learning environment. A solid, lighter fabric is recommended for this class such as white, cream, or a lighter pastel. You can spray baste or stitch some of the straight lines to secure the sandwich.
3. A 10" quilt sandwich to test sew and check your tension. Use the same fabric and batting as your main quilt project piece.
4. Thread snips
5. Quilt safe marking tools such as blue water soluble or air erase markers that will show up on your fabric.
6. Rotary rulers for marking such as a 3" x 18" and an 8" square or equivalent. These will just be to mark lines, so no specific size is required. Much marking is done at home but also bring these tools to class for additional marking requirements.
7. Freemotion Glider (Sew Steady carries both Freemotion, Grid and Rulerwork Gliders)

### **Westalee Design Tools in the Student Kit:**

- Spacing Gauge
- Stable Table (2 pc)

### **IMPORTANT TEMPLATE INFORMATION**

Templates are machine specific so you should get ones you can use for your own machines. If you have low shank or high shank templates, you may bring either to safely use in the Road to CA classroom. Please consult with the instructor if you need longarm templates for home use. The instructor has a limited number that can be reserved for a small loaner fee. Label all your tools to protect against loss as they all look the same. Templates and related items may be purchase at [FabriKated Quilts Westalee Shop](#) or any authorized Sew Steady dealer. Sew Steady has an online dealer locator to find a local shop if preferred.

### **NOTES:**

1. This is a robust class with a lot of details. It is designed to mix templates to provide integrated and more visually complex quilted designs. Please consider this when choosing to participate in this class. Also, the quilt sandwich, while not huge, does require some management when quilting these designs.
2. Although the sample has simple patterns, please just use a marked, solid fabric for class so you can learn without worrying about your perfect quilt. You can make a pieced pattern later and use what you have learned to make a final version if desired.
3. All the Westalee tools used in this class are part of the Westalee Rulerwork Kit, but they can also be purchased separately.
4. The student kit has a Spacing Gauge that each student will keep, and some Stable tape to use in class. Students may take any leftover Stable Tape home for future use.
5. Please email [kate@fabrikatedquilts.com](mailto:kate@fabrikatedquilts.com) for any questions or concerns.
