

Chain Maille 101 Supply List

1. Beading mat
2. Ruler
3. Small Tipped Chain Nose pliers without grooves = 2 pliers, one for each hand. The small tips will allow better access inside the jump rings during the creation of the bracelet. Please make sure your pliers do not have grooves on them, on the inside of the nose. Grooves will cause damage to the jump rings as you work with them, so pliers without grooves are critical to keeping the jump rings new and undamaged.
4. Optional: Beading light – highly recommended.
5. Desire to learn, and ready to have a wonderful relaxing evening learning how to make this amazing bracelet!
