

Needle Felting a 3D Animal
Class Taught by Jennefer Marker
(with Compass Moon Creations)

Description:

Know the basics of needle felting, but want to take your beginner's skill to the next level? Join Jennefer Marker, owner of Compass Moon Creations, in making a 3D cute little animal. We will discuss and learn techniques for sculpting your creation using wool. Students need to come prepared with a picture from online images of a needle felted animal that they want to create (ex: search for '*needle felted fox*'). The four-legged animal must be standing, not sitting or lying down. Basic understanding of needle felting terms, techniques and tools preferred, as this is geared towards those with a basic, working knowledge of needle felting, though all experience levels welcome.

Supply List:

2-3 printed 'inspiration images' of the needle felted animal that you want to create.

Kit Fee:

\$40

Kit Contents:

Wool

Felting Foam

Felting Needles

Accessories to complete project

Various handouts on the many topics that we will be doing and discussing
