Thick Sharpie Marker

Although many flowers will be provided for your fun, you may bring any dried flowers you would like to experiment with. Collect them and dry them out, storing in a labeled plastic bag.

While your materials kit will have a variety of threads and fabric, feel free to bring small cuts of cellulose and protein fiber or fabric. Make sure they are clean.

*Optional Record Book for referencing your results. Any style of journal that suits you will work. While the one I chose has antique pages, I show the fabric samples against white cards for color accuracy. I also used an acid free glue as acid will shift the colors.
